flawa iQ professional first aid

Functions of the monitored eyewash station

The monitored eyewash station is available in the Advanced and Pro system variants and offers the following functions.

Every use is recorded

The station records every use automatically and immediately notifies the person in charge.

Automatic replacement

Bottles that are removed are replaced automatically. Bottles that will soon expire are replaced in advance.

Everything in the iQ Portal

Stock, usage statistics, expiry dates and battery status of all stations in real time, centrally in the iQ Portal.

Alert at the press of a button PRO ONLY

One press of the button directly alerts the first aiders registered for the site.
